

Main Track

Alternate Sessions

Monday, June 3rd	
8am - 12pm	Threat Hunting in ICS Environments Instructors: Dan Gunter, Marc Seitz, Dragos This day long course will draw on the instructors deep experience to provide students with techniques and practices for identifying malicious activity in control system environments.
12pm - 1pm	Lunch Provided
1pm - 5pm	Threat Hunting in ICS Environments Course continues
5-6pm	Dinner Provided
6pm -	Evening Networking Event
Tuesday, June 4th	
8am - 12pm	Instructor: Jason Christopher, Axio Lean and Mean Cyber Risk Management Learn how to identify and assess a wide variety of cyber and physical security risks with limited resources in a utility environment. A facilitated workshop will guide participants through how to define risk, how to establish a strategy relevant to your environment, and how to identify resources that may be leveraged in developing a risk management approach—all with little or no additional support (and the capability to grow to an organization of any size, big or large).
12pm - 1pm	Lunch Provided
1pm - 5pm	Lean and Mean Cyber Risk Management Course Continues
5pm - 10pm	Downtown Excursion and Dinner Join for us for a trip to Austin's famed sixth street for a hearty dinner and networking with peers. Transportation provided from the Hyatt Lost Pines.
Wednesday, June 5th	
8am - 10am	Dam Tour/Breakout Sessions Instructor: Steve Parker, EnergySec NERC CIP Foundations
10am - 12pm	Technical breakout sessions or Dam tour (courtesy of LCRA). Details TBA. Day 1 of a 3-day course. This session will provide a foundational understanding of the NERC CIP standards, including definitions, CIP-002 asset identification, and CIP-003 low impact requirements.
12pm - 1pm	Lunch Provided
1pm - 3pm	Breakout Sessions Technical breakout sessions continued
3pm - 5pm	NERC CIP Foundations
5pm - 6pm	Dinner Provided
6pm -	Networking at Hotel
Thursday, June 6th	
9am - Noon	Instructor: Slade Griffin Introduction to Security Assessments In this course, students will learn the fundamentals of technical security assessments and become familiar with several common tools utilized for such work. Students will come away with the required knowledge to begin assessing their environments for security issues.
12pm - 1pm	Lunch Provided
1pm - 5pm	Introduction to Security Assessments Course Continues
5-6pm	Instructor: Steve Parker, EnergySec NERC CIP Deep Dive Days 2-3 of a 3-day course. This session will provide a deep dive into all of the CIP standards (CIP-002 - CIP-014). Students will come away with a thorough understanding of the requirements and expectations for compliance.
	NERC CIP Deep Dive Course Continues
	Dinner Provided

6pm -
